

INTEGRITY CLEANROOM

Brand Guidelines 2023

BRAND STORY

Integrity Cleanroom is part of the Ant Group, an established and respected supplier of static control products and Cleanroom production consumables for over 30 years.

Integrity offers an extensive range of high-quality cleanroom consumables engineered and developed to meet your requirements and ISO quality standards. With an established product range and an unrivalled customer service ethos, Integrity Cleanroom consumables have been applied in the medical, automotive, defence, aerospace and electronics industries. Our distribution centres span North America, Europe and Asia, giving a truly global platform for delivering time-critical solutions.

COMPANY STRUCTURE

Integrity Cleanroom is a trading division of the ANT Group Ltd. There are two divisions under The ANT Group; Antistat and Integrity Cleanroom.

OUR BRAND VALUES

INNOVATION & CHANGE

Passionate about supplying technology. We seek and value ideas from our team that improve our products and provide meaningful value for our customers.

HONESTY & INTEGRITY

We value our clients & our reputation, key drivers to success. We do the right thing, even when no one is watching, our actions inspire trust and confidence.

SERVICE

Service driven through global, technical manufacturing partnerships. We take pride in our accomplishments, learn from our mistakes, focus on results and strive to be the best we can be.

AGILITY

Bespoke production supplies that can meet worldwide demand. As a business and as people we respond rapidly and flexibly to customer demands, adapt and lead change in a productive and cost-effective way without compromising quality

TEAMWORK

Achieving more together. We believe in working together for overall success, every function and every role are as important as each other.

COMMUNICATION

Build world class relationships through timely, honest and accurate communication. We encourage openness, directness and diversity so that people and ideas can thrive to build collaborative, meaningful and sustainable relationships and solutions.

TYPOGRAPHY

Proxima Nova has been chosen as the core typeface to support Integrity's brand and visual identity. Using the Proxima Nova font family, helps make our communications distinctive and recognisable whilst offering excellent legibility.

All professionally designed and printed corporate communication must use the Proxima Nova typeface to maintain consistency across all communications.

All internal documents in word, outlook and powerpoint should use font Arial only.

LOGOS

Main logo with Trademark (TM) and Strapline

Alternative logos

White with transparent background

Running Man

The Integrity Cleanroom icon was derived from the original jogger and a 3 part YIN YANG.

The design starts to bring home the core values of the business and used across the group unifies the 4 businesses.

The Jogger is symbolic of the complexity of supply chain management and how as a business with our knowledge and skills we are able to turn our clients problems into our challenges.

The Yin Yang is seen as a picture of universal harmony and the unity between complimentary opposites. The holistic balance between Yin and Yang is dynamic and constantly changing, along with our business.

The red star signifies our HQ in Texas the lone star state.

Our corporate identity (logo) is comprised of three elements – the RUNNING MAN, the word INTEGRITY and our strap line.

Wherever possible the logo should appear as Pantone 312 (or its CMYK, RGB equivalent) on a white background.

In certain circumstances it may be necessary to print the logo as 100% black in a mono tone advertisement or in white on a dark background colour - on dark backgrounds the logo should always be printed in white.

Always use approved artwork for production purposes available from Marketing.

The logo is a registered trademark owned by the ESD Control Centre Ltd.

LOGO SPACING & TRADEMARK

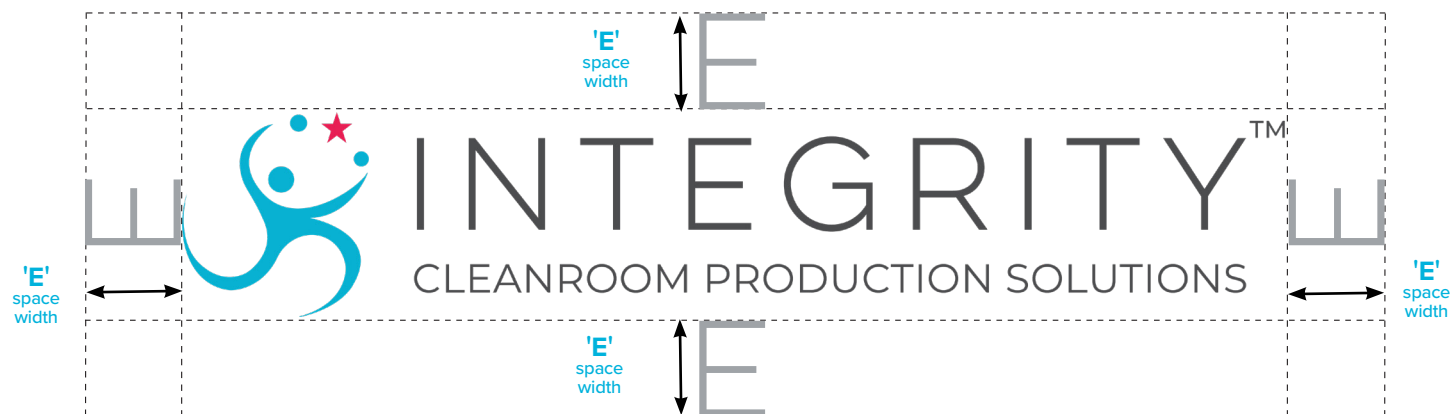

The minimum amount of clear space (also called the exclusion zone) surrounding the logotype is always equal to the height of the letter 'E' in the word INTEGRITY as indicated by the dashed line in the diagram. This area must be kept clear of any other visual elements.

Always use approved logo files for production purposes – available from Marketing Communications team.

Always use correct Pantone, CMYK, RGB or #code colour breakdown, shown in 'Colours' section.

The TM trademark can ONLY be used when the logo comprising of three elements – the RUNNING MAN, the word INTEGRITY and our strap line are all used together.

The TM cannot be used at any other time.

Main logo with Trademark (TM) and Strapline

DO NOT USE

BROCHURES

The brochure feature colour will change depending on which Ant Group brand is being presented - Orange for Integrity and Green for Antista. The colour should be used for the two triangles at the top and bottom of the page, along with any bullet points, text boxes and the separation line.

They are to be created and updated in InDesign where all the swatches will already be installed and saved in each document.

INTEGRITY

LABORATORY GLOVE SOLUTIONS

PRODUCT

Extended Blue Nitrile Gloves

TECHNICAL DATASHEET

CERTIFICATIONS

Three Extended Blue Nitrile Gloves are designed with extra length for higher levels of force and forearm protection. The gloves are thicker than standard nitrile gloves, providing 8x durability for prolonged use.

FEATURES

- Extended protection
- Reinforced palm
- Latex free
- Textured feel and excellent sensitivity
- Proven fit

APPLICATIONS

Recommended to be used in situations where:

- Protection against physical damage
- Extra coverage from harmful or contaminating fluids due to wrist length
- Extra protection for prolonged usage and extra protection

MECHANICAL PROPERTIES

- Meatier Device Regulation (EU) 2007/245
- Pipe regulation (EU) 2014/240
- Food Contact Regulation (EU) 1831/2004
